SENIOR DEVELOPER ADVOCATE

JAVA CHAMPION | WEB DEVELOPER | OPEN-SOURCE FRAMEWORKS | PUBLIC SPEAKING

Dynamic and tech-savvy Web Developer and Java Champion with extensive experience building web applications and teaching developers. Skilled in Java, Spring Boot, JavaScript, TypeScript, Angular, and GraalVM. Polished ability to efficiently solve complex issues while maintaining high customer satisfaction. Strong technical background and demonstrated ability to create and deliver compelling content about technology, including public speaking, creating videos, writing, and presenting at in-person and virtual conferences or meetups. Comfortable working remotely with a keen understanding of business requirements to develop web solutions that align with organizational goals.

CORE COMPETENCIES

Java | Kotlin | Spring Framework | Spring Boot | Spring Security | Quarkus | Micronaut | GraalVM | Docker | Hibernate | JPA | REST | Tomcat | JavaScript | HTML | CSS | Bootstrap | Gradle | Maven | Web Applications | IntelliJ | TypeScript | Angular | React | Vue | Ionic Framework | React Native | Troubleshooting | Technical Support | Public Speaking | Writing | Video Editing | Skiing | Mountain Biking | Whitewater Rafting

ACCOMPLISHMENTS

- Fostered teamwork, leadership, and collaboration with teammates as the lead of the Java Community team.
- Produced hundreds of examples and tutorials using Java, Spring Boot, Quarkus, Micronaut, and many other open source frameworks for Okta and Auth0.
- Skilled YouTuber with many step-by-step tutorials on the [@oktadev](#) and [@mraible](#) YouTube channels.
- Authored the JHipster Mini-Book using AsciiDoctor and published several releases, v7 is the latest, and the book gets hundreds of monthly downloads from InfoQ. Read [online](#), [download](#) from InfoQ, or view the [GitHub repo](#).
- Authored the Angular Mini-Book about how to use Angular and Spring Boot securely. Published several releases, v3 is the latest. Read [online](#), [download](#) from InfoQ, or view the [GitHub repo](#).
- Concentrated efforts in HTML5 development with a heavy emphasis on JavaScript and CSS 3 and consulted for many companies, including Oracle, Overstock.com, Time Warner Cable, Evite, LinkedIn, and Comcast.
- Oversaw and directed technology selection, architecture, and development of scalable, interactive web applications to present rich media, dynamic content, and subscriber utilities for Time Warner Cable.

PROFESSIONAL EXPERIENCE

Okta | Remote

Developer Advocate Architect

Developer Advocacy Director

Sr. Manager, Developer Advocacy

Developer Evangelist

Sept 2016 - Feb 2024

Nov 2022 - Feb 2024

May 2020 - Nov 2022

Feb 2017 - May 2020

Sep 2016 - Feb 2017

- Led the Java Community team and collaborated with other advocates to reach the most developers.
- Produced popular videos on the OktaDev YouTube channel, demonstrating the use of Okta and Auth0.
- Delivered 20+ tech talks yearly at popular Java conferences and meetups.
- Recruited others from Okta to help create an OSPO (Open-Source Program Office).
- Constructed a RAPID document and provided history and reasons for developing an OSPO at Okta.
- Devised and provided possible outcomes and recommendations and solicited stakeholder feedback.

Java Editor & Author | InfoQ | Remote

Jan 2014 - Present

- Responsible for writing Java-related news and articles. Author of the JHipster Mini-Book and the Angular Mini-Book.
- Committed to write an InfoQ Mini-Book about JHipster using AsciiDoctor which InfoQ anticipated to be an expensive book to publish yet turned out to be one of the cheapest.
- Published a book on Spring Boot and Angular to showcase the building blocks of JHipster and wrote the Angular Mini-Book using the AsciiDoctor template that I created for InfoQ.

President & CEO | Raible Designs | Remote

May 1998 - Sep 2016

- Launched my own company, and it operated for 18+ years.
- Began with an HTML/JavaScript focus and transitioned into J2EE development with Struts before becoming an expert on Spring and JavaScript frameworks.

PROFESSIONAL EXPERIENCE CONT.

- UI Architect | CA Technologies | Remote** **Nov 2015 - Aug 2016**
- Recruited by CA to aid in adopting AngularJS and created two new products with it through utilizing agile practices to develop and successfully launched both products in six months.
 - Due to the team's unfamiliarity with AngularJS, provided architecture guidance, evangelized AngularJS best practices, developed features, reviewed code, and created/delivered presentations on Sass, CSS, and Angular 2.
- Modern Java Consultant | Health Information Designs | Remote** **Apr 2014 - Oct 2014**
- Assisted in the launch of PA Logic 4.0, released in June, followed by upgrading from Acegi Security to Spring Security, and subsequently assisted in upgrading to GWT 2.6 and converting to HTML5.
 - Collaborated on other projects including migrating from IBM Message Broker to Apache Camel and developing a REST API with JAXB, Spring Boot, and Spring Data.
- UI Architect | John Muir Health | Remote** **Sep 2013 - Mar 2014**
- Hired by John Muir Health to assist with mobile architecture, the release of My John Muir Health (November 2013) and MyJMH mobile app (April 2014).
- UI Architecture Consultant | Taleo | Remote** **Sep 2011 - May 2013**
- Aided Taleo team members to architect and implement their next-gen UI and improved developer efficiency.
 - Achieved successes for TBE's UI, including profile pictures, org chart, redesign with HTML5/CSS3/Bootstrap, a JavaScript-based PDF Viewer, and My Dashboard.
- Chief Architect, Web Development | Time Warner Cable | Denver, CO** **Dec 2009 - Dec 2010**
- Helped build a team of 10 developers who developed two different SOFEA applications over the course of a year, with the server-side written with Spring MVC, who talked to data sources with RestTemplate and produced JSON.
 - Clients were written for iPhone, iPad, Android, and HTML5 with jQuery, Sony Blu-ray players, and Samsung TVs.
- UI Architecture Consultant | Pegasystems | Remote** **Aug 2009 - Nov 2009**
- Aided in constructing a workflow tool that looked and operated like a desktop application in a browser.
 - Developed heavily with GWT and GXT, used Maven and Selenium to build and test, and services were provided by the REST backend, which was built with CXF.
- UI Consultant & Architect | Evite | Remote** **Dec 2008 - Jun 2009**
- Evaluated Ajax Frameworks and determined to use GWT, chose the UI framework with other team members choosing Grails and Memcached to develop scalable RESTful services.
 - Implemented the architecture using GWT's RequestBuilder to talk to Grails' services, which cache almost all their JSON output in Memcached.
- Lead UI Architect | LinkedIn | Denver, CO** **Jul 2007 - Nov 2008**
- Led the LinkedIn UI Frameworks Team and acted as an internal open-source group responsible for documenting, developing, and supporting web frameworks used at LinkedIn.
 - Delivered key functionality into the production site for projects, including page speed optimization, service/session optimization, and many bug fixes and enhancements to the current web framework.
 - Conducted an in-depth analysis of LinkedIn's proprietary Java web framework and investigated migrating to an open-source web framework.

VOLUNTEERISM

- Lead Security Engineer | JHipster** **Feb 2017 - Present**
- Volunteer on the JHipster project. Initiated the sponsorship program via OpenCollective and helped raise over \$350K for the project with an \$80K annual budget.
- Senior Software Engineer | JHipster** **Aug 2015 - Feb 2017**
- Founder & Lead Developer | AppFuse** **Apr 2003 - Apr 2016**
- Founder of the AppFuse Open-Source project, which allows you to get started quickly with Java frameworks, including Maven, Spring, Hibernate, Struts 2, Spring MVC, JSF, and Tapestry.
- Roller/Struts 2 Committer | The Apache Software Foundation** **Aug 2002 - May 2008**

EDUCATION & CERTIFICATIONS

Triple Major, Russian, International Business, and Finance - Minor in History | University of Denver
 Functional Programming Principles in Scala - Coursera | Okta Certified Professional & Developer

HONORS & AWARDS

JavaOne Rock Star Award | Java Champion - Oracle | Oracle ACE Pro - Oracle
